

ABASCO Type 1 DOT Turbidity Curtain

ABASCO Type 1 DOT Turbidity Curtains are well suited for use in protected waters where the effects of wind, waves and current are minimal. Quality 18 oz. PVC laminated fabric, bottom tension member and marine-grade flotation provide a strong, durable curtain which is ideal for silt and sediment control during dredging and marine construction activities. Meets or exceeds most state DOT requirements.

Fabric	18 oz/yd ² PVC Laminated Polyester Fabric. Optional filter fabric in skirt.
Flotation	6" EPS foam contained in individually sealed float pockets
Bottom Tension/Ballast	1/4" Grade 30 Galvanized Steel Chain (5200 lbs breaking strength, 0.63 lbs/ft)
End Connection	Lacing grommets on rope-reinforced ends located both ends of barrier section. Ballast chain shackled section-to-section.
Section Length	25/50/100 ft.
Skirt Depth	To 20 ft. Depth can be tapered to conform to bottom profile.
